

Solutions for Extreme Environments!

Polymer Group Ltd is an applied technology company comprising a team of industrial chemists, engineers and qualified coatings inspectors, which has served New Zealand industry for over 30 years.

The company is privately owned and has a manufacturing base in East Tamaki, Auckland. We manufacture and market a portfolio of high performance and specialty products and services for a core base of New Zealand industries and manufacturers.

The company's key target markets are the dairy industry, oil & gas, petro-chemical, water and wastewater, power generation, pulp and paper, and the building and construction sectors.

The company's business is divided into three functional divisions:

- High performance insulation and polyurethane materials
- Heavy duty coatings and wear-resistant linings
- On-site contracting operations which play a key role in providing a sole-responsibility installation service.

Property Asset Protection is a major focus for the company, providing proven, durable solutions for the protection of structural steel, concrete and timber structures under its banner:

Solutions for Extreme Environments!

Enriching lives through innovation

ALLIANCE PARTNER

High Performance Polyurethane Insulation and Elastomeric materials

MASTER DISTRIBUTOR

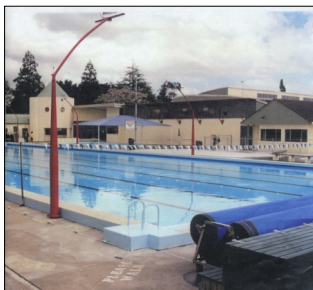

Waterproofing, Flooring and Lining Materials

EXCLUSIVE NZ DISTRIBUTOR

Protective and Marine Coatings

Products and Services

<ul style="list-style-type: none"> • HIGH PERFORMANCE INSULATION POLYURETHANE FOAMS AND EQUIPMENT 	<p>For industrial and commercial insulation, spray, hand pour, injection and moulding, electrical encapsulation, wear resistance coatings and linings.</p>
<ul style="list-style-type: none"> • PROTECTIVE COATINGS & LININGS FOR STEEL AND CONCRETE 	<p>For all industrial and structural steel applications including tank and pipe linings; fire-proofing.</p>
<ul style="list-style-type: none"> • WATERPROOFING POLYURETHANE AND POLYUREA ELASTOMERS 	<p>For waterproofing membranes, roofing and Carpark refurbishment, casting, moulding, electrical encapsulation, wear resistance coatings and linings.</p>
<ul style="list-style-type: none"> • FIREPROOFING, PASSIVE INTUMESCENT AND CEMENTITIOUS 	<p>Offers an unsurpassed range of passive fire protection products for oil and gas facilities, energy generation, pulp and paper facilities, commercial and industrial buildings.</p>
<ul style="list-style-type: none"> • POLYMER FLOORING EXTREME EXPOSURE POLYURETHANE & EPOXY 	<p>A leader in heavy duty industrial products, Polymer Group can offer long term solutions for flooring protection.</p>
<ul style="list-style-type: none"> • MOVIE/TELEVISION/THEME SET MATERIALS 	<p>Environment creating materials for movie sets, moulding and production. Lightweight rapid curing.</p>
<ul style="list-style-type: none"> • CONSTRUCTION AND MARINE EPOXY SYSTEMS 	<p>For wooden and exotic boat building, adhesives, and grouts for the construction industry, coatings and heavy duty floor toppings.</p>
<ul style="list-style-type: none"> • PERMACHIP ARCHITECTURAL COATINGS 	<p>High quality, highly durable, attractive architectural, commercial and industrial floor and wall surface treatments.</p>

Services

ON SITE APPLICATION AND SUPERVISION

With extensive experience in on-site application, Polymer Group is able to offer a unique contract installation service. Accepting full contractual obligations to both supply materials and arrange/supervise application, the company provides a sole responsibility service. Polymer Group now offers the client the simplest form of project or maintenance management.

CUSTOM DESIGN, FORMULATION, MANUFACTURE

The Company also offers a product design service. Custom formulations for clients; specific end use requirements and custom manufacture, are part of this service. Product design alone can also be accommodated on a project basis.

All Polymer Group operations are conducted under and in accordance with the international quality standards established by ISO 9001:2008.

Personnel

Polymer Group is justifiably proud of its technical achievements and the abilities of its personnel. A wealth of experience in the surface coating and chemical industries provides the client with extensive technical expertise, whether it be in the field of consulting, specification writing, product design, or field application and supervision.

Hayden Nicholson—(BSc. Chem) - Managing Director

40 years in the chemical industry, with a background in synthetic resin, surface coating, and product design technology. A co-founder of Polymer Developments New Zealand Ltd (1978)

Lorne Crowley—(NZCS Chem) - Technical Director

35 years technical/marketing experience in the specialty chemical and surface coating industry. Co-founder Polymer Developments New Zealand Ltd (1978).

Ron Avery—(NZCS Chem, ACA-Certified Coating Inspector, National Cert. Business Studies)

General Manager—Contracting

Over 30 years experience in the metal pre-treatment and structural steel protection industry, widely experienced in maintenance audit procedures, on-site supervision and co-ordination of contract sub trades. Quality inspections.

Phillip Back—(NZCS Chem, Diploma in Surface Coating Technology)

Product Manager—Polyurethanes

20 years experience in the polyurethane and surface coatings industry with a grounding in production, development and technical sales.

Andrew Taylor—(Dip. App. Sc Chemistry, ACA-Certified Coatings Inspector,)

Operations Manager

Andy is a long serving member of the company with 15 years in polyurethanes and the surface coatings industry. He is familiar with all of the technical aspects of Polymer Group Ltd, ranging from production, research and development, as well as technical sales and service.

Kamran Armin—(BE Mechanical, ACA-Certified Coatings Inspector, NACE Coating Inspector Level 2-Certified, Cert. No. 24007)

Sales Engineer—Coatings

Kamran brings his engineering skills to the industrial coatings industry. He is highly experienced in maintenance audits, specification preparation and project management. He specializes in protective and marine coatings and fireproofing solutions for all types of structures.

David Thys—Customer Service Representative

David is the newest member of the Polymer team and is an experienced sales professional. He is responsible for the co-ordination and despatch of all incoming orders, transportation, and invoicing, as well as Sales/Operations liaison.

**Chemically Engineered Solutions
for Extreme Environments**

**We are on the web
www.polymer.co.nz**

Polymer Group Ltd is an applied technology company comprising a team of industrial chemists, engineers and qualified coatings inspectors which has served New Zealand industry for over 25 years.

Property Asset Protection is the company's major focus, providing proven, durable solutions for the **protection of structural steel, concrete and timber** structures.

Wear resistant, Anti-corrosive Protection Systems are engineered to provide optimum performance and extended maintenance intervals.

Surface Coating Technology Advances offer multiple choices to the asset manager and civil engineer who is seeking long term solutions and minimum downtime, but not always able to provide an optimum application time frame.

Maintenance Assessments and Specification Options give the client the opportunity to inspect and discuss the asset with experienced personnel, taking into consideration the exposure environment, past performance of any existing protection systems, available downtime and other constraining influences.

Sole responsibility Material Supply and Application Contracts provide the client with further reassurance that their protection/maintenance systems are supplied and installed by a **Quality Assured, company.**
