POLYMER GROUP LTD

Contracting

Sole Responsibility

Polymer Group Ltd provides "Sole Responsibility" contracting services to our commercial and industrial clients.

That is we specify the materials from our varied and comprehensive range of products, we supply the materials to the contract, manage and undertake the contract.

Our philosophy has been to use locally proficient applicators and trades people, supply product, manage and supervise the work. Where the skills required to install some of the more technically advanced products are not available locally, we use our own trained personnel.

The ability to use our own personnel and/or contract manage local applicators, ensures installation and product parameter compliance and provides competitive pricing to the client.

Contracting Scope

- Lining **bulk storage vessels** with state of the art 100% solids coatings.
- Lining **bunded structures** with epoxy, polyurea or ester materials.
- Lining **sewage structures** with 100% solids epoxies, polyurethane and polyurea coatings.
- **Waterproofing** roofs, walkways, stadiums with liquid applied moisture cured polyurethane elastomers and with chemical resistant plural component applied, rapid set polyureas.
- **Waterproofing car parking decks** with liquid applied moisture cured polyurethane elastomer systems.
- Laying **chemical and heat resistant epoxy and urethane floor toppings** for the food industry.
- Applying non slip coloured aggregates to concrete and steel surfaces (Enduragrip).
- Laying a timber-based light-weight floor leveling compound—"Magnatex".
- Laying 6.0mm thick rubber based sports surface to indoor sports stadiums—"Uniturf"
- Moisture Stop—Crack Injection.

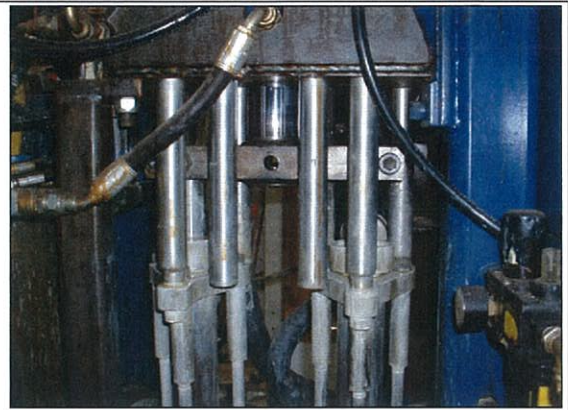

POLIBRID

TREMCO

Nullifire

- Jotun® Protective Coatings
- Rhino Linings® Durable Coatings
- Polibrid® Durable Linings
- Tremco® Waterproofing Systems
- Nullifire® Fireproofing

Equipment

Polymer Group owns and operates two heated high pressure plural component dispensing machines. Designed and configured to spray 100% solids, polyureas, polyurethanes and epoxy lining materials. These machines have been in continuous use for the past 10 years.

Our experience with the operation of these machines and understanding the idiosyncrasies of applying these specialist coatings has allowed us to apply many thousands of litres to a variety of substrates.

Client Base

Our contracting team operates from Cape Reinga to Bluff.

Our clients include: Meridian Energy

Contact Energy

Trust Power

Genesis Energy

Mighty River Power

Carter Holt Harvey

NZRC

Water Care Services

Carter Holt Harvey

Fonterra

ING Property Trust

Goodman Group

United Group

Nelson City Council

Rotorua District Council

Water & Waste Water

Polymer Group uses epoxy mortars, coatings and polyurethane elastomers to rehabilitate concrete in water and waste water structures.

Flooring

Polymer Group operates our own team of specially trained installers for high performance flooring coatings and toppings.

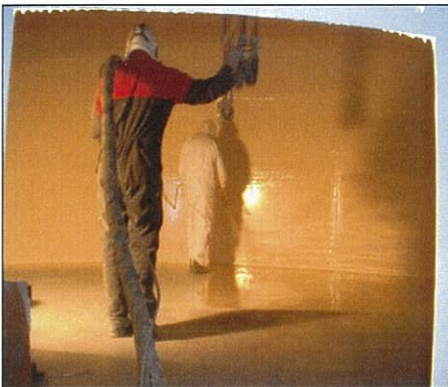

We accept total contract responsibility for the product selection, supply, preparation and installation.

Super smooth glossy finishes to aggressive non-slip finishes.

We install industrial and commercial finishes from thin film general purpose coatings to specialist screed toppings for Dairy, Pharmaceutical and Food Processing Plants.

Concrete & Steel Tanks & Linings

Polymer Group applies corrosion and chemically resistant linings to concrete and steel structures. From bundled structures, pipelines to bulk storage tanks holding chemical, hydrocarbons, sewage materials and the like.

Waterproofing

Polymer Group applies waterproofing solutions to industrial and commercial premises.

Our products of choice are the liquid applied moisture cured urethane elastomers and the rapid set plural machine applied polyurea and polyurethane membranes.

**Chemically Engineered Solutions
for Extreme Environments**

**We are on the web
www.polymer.co.nz**

Polymer Group Ltd is an applied technology company comprising a team of industrial chemists, engineers and qualified coatings inspectors which has served New Zealand industry for over 25 years.

Property Asset Protection is the company's major focus, providing proven, durable solutions for the **protection of structural steel, concrete and timber** structures.

Wear resistant, Anti-corrosive Protection systems are engineered to provide optimum performance and extended maintenance intervals.

Surface Coating Technology Advances offer multiple choices to the asset manager and civil engineer who is seeking long term solutions and minimum downtime, but not always able to provide an optimum application time frame.

Sole Responsibility Material Supply and Application Contracts provide the client with further reassurance that their protection/maintenance systems are supplied and installed by a **Quality Assured, ISO 9001:2008** company.

Solutions for your Extreme Environment!
