

CASE HISTORIES

Eliminator® from Stirling Lloyd is a 100% effective seamless bridge deck waterproofing membrane, flexible and tough enough to outlast the design life of many structures.

For Road and Rail Bridges Designed by engineers, Eliminator® is the result of an 8 year independent research programme to develop the ideal waterproofing membrane.

No other bridge deck waterproofing system features such advanced MMA Technology, has such global approval or protects so comprehensively.

Completed New Zealand Projects:

NZ Transport Agency

Dominion Road, Auckland
Completed 2010

Concrete Road Bridge

NZ Rail

ECMT Bridge 63, Tauranga
Completed 2011

Concrete Rail Bridge

ECMT Bridge 52, Tauranga
Completed 2014

Steel Rail Bridge

ECMT Bridge 48, Tauranga
Completed 2014

Steel Rail Bridge

NIMT Bridge 273, Taupiri
Completed 2015

Steel Rail Bridge

NIMT Bridge 201, Taumarunui
Completed 2015

Steel Rail Bridge

NIMT Bridge 203, Taumarunui
Completed 2015

Steel Rail Bridge
